SEND MONEY by post-office order, express money order, or draft. Registered letters are seldom lost in the mails

C. O. D. SHIPMENTS we prefer not to make unless amount of bill is \$5.00 or more. If we send less value than \$5.00 C. O. D., customers pay charges for returning money to us. **To Gulf States and States west of Mississippi River** no shipment C. O. D. unless one-fourth the estimated amount of the bill accompanies the order

RETURN OF GOODS—Carpets, remnants of dress goods, mattresses, blankets, books, toilet brushes, combs, and other toilet articles, rubber sundries, and *any article of dress that has ever been worn* are *not* returnable. Other goods, if returned promptly, reaching us in same condition in which they leave the store, will be cheerfully exchanged

HOW TO RETURN GOODS—Wrap securely, address package plainly to us, and write sender's name and address on upper left hand corner, and write us separately by mail full particulars respecting goods returned and your further order

TIME TO MAKE CLAIMS—All exchanges must be requested, and all claims or complaints made, *within five days after receipt of goods*

Gentlemen often desire purchases of Furnishing Goods duplicated. We will be pleased to give prompt attention to their wishes. If former purchase was made by letter within ten months, please give date; if in person, and the goods were charged, please give date and full particulars. As far as possible, this will be done in other lines of goods.

Follow these methods to save you annoyance

THIS BOOK goes to an army of customers who order by letter

THE INFORMATION AND SUGGESTIONS printed on this page are of value to you all

PRICES herein, it is expected, will not change during six months from Sept. 15th; if there is an advance on any article, notice will be given when the order reaches us

AN ORDER from this book should state page, number and description

WRITE WITH INK, state amount enclosed, and how we shall ship your goods, and begin your order with a list of goods desired, writing amount of cost at the end of each line; special instruction may follow

SIGN YOUR FULL NAME plainly, and always the same, not "Mrs. James Brown" in one order and "Mary Brown" in another

DON'T MIX ORDERS with other communications. Use separate sheet for each subject. Write sample requests on separate sheet

PRICE TICKETS should always be enclosed when you order from sample

SIZES of all garments ordered should be carefully stated

Why We Do Not Pay Expressage

1. Because the expense reduces the price sometimes to cost, and no one sells regularly at cost; therefore, it cannot be done without raising prices or lowering qualities, if not in all cases, at certain times when these changes cannot be discovered.
2. Because we have no special stocks including "second" qualities or "handled goods" kept exclusively for mail order purposes
3. Our unalterable rule is to put Mail Order customers in exactly the same position as if they stood before the counter with their money buying our most desirable goods at their lowest prices. If between the inquiry for samples and prices and the time of receipt of an order a reduction is made in prices, the customer receives the benefit of it. It goes without saying that prices based on costs of delivery from Maine to New Orleans must be higher than in a store like this where all prices are adjusted to instant cash at the counter.

Dress Trimmings and Small Wares

Seven long counters are needed for the display and selling of dress trimmings, buttons and the almost innumerable collection of small wares. An expert makes frequent visits to the fashion centres of the world to keep in touch with the developments of garnitures for women's wear, and more exclusive bits of elegance are shown at Wanamaker's than in any other American store. Clear information as to needs and price limitations will enable shoppers by mail to fully enjoy the advantages of this department of the business.

Art Needlework

All sorts of stamped goods, zephyrs, yarns, books of instruction and ornaments for fancy work. Fancy articles ready made and materials for making. Fancy braids, canvas, needles, threads, stamping pads, etc. Bureau scarfs, sofa pillows, piano covers, glove boxes, work baskets and boxes. A complete line of started work in fine linen table centers, bureau scarfs, lunch cloths, baby pillows and toilet sets, in the newest ideas.

House Furnishings

Every desirable kitchen convenience will be found in our House Furnishing Store; all the new things that help to lighten the housekeeper's labor as fast as they appear. A full line of oil and gas-stoves. Reed furniture, woodenware, aluminum and tinware. Carpet sweepers and refrigerators.

The Quaker City Sewing Machine, \$18.00. Send for a circular.

Carpets and Floor Coverings

Almost two acres of floor space in the Carpet Store, and such a heaping up of styles as the whole world can scarcely show the match of. From the finest Oriental rugs to Ingrains, Mattings and Oil Cloths, the gathering is as nearly complete as we know how to make it. Our masterful grasp of the market lets us make the littlest of little prices, and continually brings us special lots that we pass out at figures that astonish the trade as much as they delight customers. In ordering carpets by letter, preference as to color and design should be clearly stated.

Wall Paper

If you have a room that needs papering, it will pay you to get our prices and samples of wall paper. We pay special attention to mail orders. Give the size of rooms, and about the price you wish to pay, when writing for samples.

Pictures and Frames

It costs very little to brighten every room with a pretty picture. Hundreds of subjects to select from in our picture store. We also make picture frames to order.

China and Glassware

The manager of our China store visits the great ceramic centers of Europe every year, and brings over their best productions. All the best American potteries are represented in our stock. Illustrations in colors showing patterns of fine chinaware will be mailed free on request.

In cut and pressed glassware our stock is particularly complete.

Trunks

Write us the size and kind of trunk you want and descriptions and prices will be promptly forwarded. Very cheap trunks for packing away garments; very staunch trunks for travelers' uses.

Furniture and Bedding

About three acres of furniture samples. The largest retail stock to be found in this country. Furniture was never so cheap as now. Our large purchases direct from the makers bring the prices down to a point that excites wonder that furniture can be made for so little money. Descriptions and prices mailed to any address on request. Give us an idea of what you desire.

Mattresses and all kinds of bedding.

Baby Coaches

All kinds, from \$3 75 up to \$60.00 each.

Toys

About a quarter of an acre in the basement is devoted to toys and games. Our buyers personally visit the toy-making centers of Europe every Summer and gather everything that is new or novel, as well as large supplies of the old stand-bys that have delighted the children for years. We sell about one hundred and twenty thousand dolls every season, and other toys in proportion. Every American production, of course, as well as the imported.

A special Holiday Catalogue of Toys and Games will be ready about the first of December. Yours for the asking.

Bicycles and Athletic Goods

A catalogue descriptive of our Continental Bicycles will be sent for the asking. We've sold nearly nine thousand of these wheels for men and women, and we thoroughly believe in them as high grade, staunch and handsome bicycles. Recent advantageous arrangements with the makers (for the Continental is simply one of the nationally known high-grade wheels under our trade-mark) lets us reduce the prices to \$37.50 and \$50.

And of general athletic goods and sporting goods we carry stocks quite as complete as are to be found in exclusive stores. And our prices are usually much lower.

Harness and Horse Goods

Our Harness stock is complete in staple goods, and all the American and Foreign novelties. Only dependable materials and trimmings are admitted to our Harness store. Leathers are the best oak tanned; silver mountings are all on German silver castings, finished with close plating of Sterling silver. The stock is very complete in equestrian goods, saddles, bridles and whips. Stable requisites of all kinds.

Watches and Jewelry

The finest stock of warranted jewelry. Styles always the newest, workmanship the best. Descriptions and prices of anything in gold or diamond jewelry will be cheerfully given. Jewelry sent on approval to persons who furnish satisfactory references. A full line of Sterling silver jewelry and novelties. All the leading makes of reliable American watches. Geneva watches our own direct importations. Gold pen and pencils. Sterling silver thimbles.

Table Cutlery

Every kind of knife from a ten-cent potato peeler to a Sterling-silver-mounted carving set at \$45.00. Table knives and forks, all kinds.

Optical Goods

If you need eyeglasses, our skilled opticians can give you exactly what you require, and at moderate prices. This can be done by correspondence if you cannot conveniently visit the store. Prescriptions accurately filled. We import opera glasses, field glasses, spyglasses, tourists' glasses and reading glasses from the best foreign makers. A full line of photographic apparatus. Special catalogue of cameras and outfits free on request. The Pocket Kodak ready for taking twelve pictures, \$5—a thoroughly practical camera. Full instructions.

Pocket Cutlery, Scissors and Razors

Every kind and style of reliable pocket knives, Imported and American razors of the best makes, razor strops and Safety razors, also a full line of scissors and shears. There's not an unnecessary penny to pay. We buy right; we have goods produced to our order. We're first sure the goods are right--then fair prices are put upon them.

School Stationery

Every kind and sort of school helps—pencils, slates, school companions, bags with or without initials, exercise books and anything that smooths the road to knowledge.

A complete line of artists' materials, that would require a good sized catalogue to enumerate and at Wanamaker prices.

Clocks and Bronzes

All kinds of timekeepers, from the nickel-plated alarm clock at 75 cents to the most elaborate clock for the parlor mantel. State about the price you wish to pay, and indicate the kind of clock wanted and illustrations will be mailed. The stock includes a full line of office clocks, bronze ornaments and marble statuary.

Lamps

A storeful of lamps of every kind and size. No trashy lamps of any kind, but every worthy sort, and the prices are always the lowest.

Dress Goods—Autumn and Winter 1896-'97

No other retail store in the whole world sells so many dress goods; no other retail store carries such a comprehensive collection of rich fabrics. A corps of experts are on the alert for every meritorious newness the looms produce. They go to the centers of supply, both in Europe and America, and orders are given for lots so large that mill men are glad to name us lower prices than are charged other dealers; hosts of rich designs are confined exclusively to us. Travelers tell us that visits to the stores of Paris, London, Vienna and New York do not disclose more textile elegance and beauty than is regularly found in the seasons' collections at Wanamaker's; and many who formerly gathered stuffs abroad are now best served in Philadelphia. Prices are always reasonable, and as a rule are considerably less than those quoted by other houses.

The stuffs that will be most worn this season, will be inclined to roughness. Variety will probably be greatest in those approaching the mixed order, a class of stuffs similar to English chevots and goods where two or more colors are used in the weave. Some rough stuffs of solid color will also be the mode, such as drap d'chenille (caterpillar chevot); besides a number of tailored gowns will be made from rich satiny broad cloths and the much admired, and serviceable covert cloths. The leading colorings are the variations of tones in greens and browns, with a fair demand for those in which the prominent color shows navy blue and the lighter shade known as French blue. There is also a leaning toward the warm rich tones of heliotrope by the ultra fashionable. This color is growing very rapidly in favor in Paris, but will not gain as rapidly here, as our tastes lean to less marked colors.

Black also will be much worn this season, as it was last; indeed one would not have a complete wardrobe these days, that did not include one or more good gowns of black. No small wonder that black stuffs have been received with such favor, for the weaves of to-day are such as are particularly adapted to make black a fabric of fashionable attire, the smooth weaves being suited for mourning.

The rougher weaves in black will be worn, similar in weave to those in colors; many of the new weaves shown are woven from the coarse and silky chevot yarns, the richest and most elegant are those of higher cost, in which the best grade yarns show their great silkiness.

The following is a short list of some of the stuffs in colors and the names they are known by:

Bison chevots
Sail cloth chevots (two toned)
Basket chevot
English chevot suiting
Bouretted chevots
Tailor chevots
Fancy silk mixed chevots
Check sail cloth chevot
Potato sack chevot
Two color curly chevot

Broad cloths

And many others that would make the list too long to name

the Here is a short list of a few of the principal weaves in black goods
Zebeline sail cloth
Bison chevots

Sail cloth chevots
Granite chevots
Astrakhan curl chevots
Camel's hair cloth
Knotted armures
Mohair sail cloth
Mohair shark skin
Mohair armure figures
Souffle figured silk velours
Figured silk and wool taffetas

And a number of others besides the large lines of every day stuffs of a staple character, that are always to be found in this most complete stock

In addition to the latest style of dress stuffs mentioned for fall and winter, our stocks are always replete with solid color stuffs in the popular colorings and weaves. These goods are in general demand at all times and are as necessary to a complete dress goods stock, as sugar or soap is in a fancy grocers' stock. No matter what styles come and go, certain solid color stuffs are always worn and are more appropriate when worn on special occasions than the ultra fashionable stuffs. By way of illustration, for instance, what goods would be more suitable for doing a day's shopping in stormy weather than the crisp dampness defying blue, green, or brown storm serge, cravette or pluette, or a gown of fine French twill surah, whipcord, or henrietta for the morning gown about the house. Besides the number of other pretty solid color stuffs such as armures, jacquards, and others that are used for separate skirts, and entire suits that go to make a decided change of costume, that you may not be recognized as having worn the same gown the entire season through. To sum it all up, you are sure to find every style of weave, every color, and all the qualities of goods that you could desire and this all under one broad roof

Flannels

This stock is constantly having added to it new ideas in pattern and weave. It is one of the most interesting stocks in the store, because of the many kinds of stuffs found there that are necessary to health and comfort as well as adornment.

The stocks of fancy French printed flannels are overflowing the shelves with new and dainty patterns, many suited for infants' little jackets and women's tea gowns and breakfast jackets, in dainty pinks, light blues and soft greys, besides the darker patterns that do not reach the wash tub so frequently.

White flannels. This stock is large and includes every flannel goodness from the cheapest to the best. The lines in every grade are always kept full and complete, should it be an all-cotton domet, or an all-wool, part wool, silk and wool, swansdown, cricket, gauze, sheeting, shaker, either plain or twilled, that is desired, we have it in all the grades made, and at the lowest prices they can be sold at. Colored flannels, too, in all the different weights of plain and twilled, in Scotch mixed, grey and scarlet shaker; also, scarlet medicated, grey twilled and blue twilled.

Styles of embroidered flannel include about all the patterns that could be used in an embroidery on flannel, and look well, in all-over, hemstitched and embroidered edge, both in white and colored flannels. In no other flannel stock can such another collection be seen.

Eiderdown flannels, too, those fleecy nap flannels that are like soft down for warmth and weight, are here in all widths and qualities, in pale blue, pink, cream and the darker colors, both plain and fancy; nothing has yet usurped the niche this particular flannel fills, so dainty for afaghans, crib blankets, opera cloaks, sacques, jackets and wrappers.

Saxony plaid and stripe flannels for wrappers, colored French twilled flannels and cotton and wool Ceylon wash flannels, in neat checks and stripes, help to complete this attractive flannel stock.

Muslins

All the familiar brands and standard makes of muslins are always to be had of us at short notice, as we at all times carry a heavy stock of these goods; but for bedding purposes the sale of pillow-casing and sheeting has become very limited, owing to the cheapness of electricity as a motive of power for sewing machines. We contract with large operators to do the hemming of sheets and pillow cases for us in such large quantities that it enables them to do the work at a trifling cost, and lets us sell you the ready-to-use sheets and pillow cases at a penny or two above the bare cost of the muslin. Besides, the sewing is superior to home work and more uniform, too. All the standard muslins are used by us and you can have your pet brand at any time and the size of pillow case and sheet you may desire.

Dress Linings

Every right lining can be found in our stocks at all times, and we are continually adding new kinds as they are being brought forward by the makers. Many new linings introduced first here were in our stocks and selling every day for months before other houses seemed to know the existence of such a stuff. This is an up-to-date lining department and we mean to keep it such by bettering it every day. Where linings come in colors we cover every need by keeping on hand every shade that is likely to be wanted at any time. There are now in our lining stocks over one hundred and fifty different lines and qualities, not counting colors in the different lines—which would run it into the thousands. A lining for every lining-use, for men's tailoring as well as for women's wear, and of the dependable kinds. We are constantly besieged by makers to place in our stocks inferior grades that can be bought at a less price. Taking the stand that the best is the cheapest when a lining is the question, we feel you agree with us in this, judging by our sales.

The New Silks

We carry one of the most complete retail stocks of silks to be found in this country. The foreign silks are imported direct for our trade, being purchased abroad by our own buyers. Many exclusive novelties appear on our counters, and the staple silks are always here in greater variety than anywhere else. Two hundred and forty-three feet of counter space are devoted to the sale of silks alone—comprising five separate departments, viz.:

(1.) *Fancy Silks of all kinds and colors.* (2.) *Chameleon and Shot Silks.* (3.) *Black Silks, both plain and fancy.* (4.) *Evening Silks, both plain and fancy.* (5.) *Plain Velvets, fancy Velvets, plain India Silks, figured India Silks.*

There are indications that this will be a season of many novelties, no one thing having appeared as a favorite. Among the most favored will be Moiré Antique Fancies, Moiré Velours, Brocades of all kinds, and Tinsel effects. Velvets will be extensively used.

Embroideries

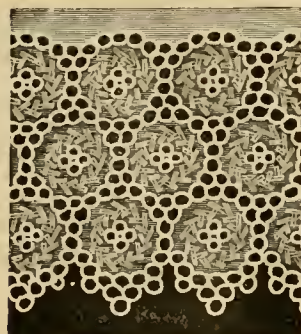

When requesting samples always state the quality, the width and approximate price. It is not our custom to sample wide embroideries, but send samples of the narrow representing quality of the wide. In ordering from cuts of embroideries or trimmings, it would be wise to allow us the privilege of sending the nearest design in stock, if the pattern desired should be out. *Designs are constantly changing*, hence it is almost impossible to keep these exact patterns constantly on hand, but the range of price, quality and width is always complete.

It is this: We carry a line of all white hemstitched Handkerchiefs of French make, ranging in price from 50c to 2.50 each, for men or women. We will take special orders to have your initial or monograms handsomely hand-embroidered, in Paris, on any of these handkerchiefs you may select. The work is done in either all white or French blue, red or yellow, or mixed colors. We ask six weeks to complete your order. One hundred and fifty styles to select from.

The price of work depends on the style selected.

We may not be able to furnish the entire season the identical patterns as are shown, but will always have about ten others very similar. The cuts are merely to give some idea of effect

Science has joined the ranks of the shoemakers, and now it is possible to get ready-made shoes of better material, more perfect form, and more comfortable fit than ever before. In best shoemaking this country leads the world, and THIS CITY leads the country. Our shoe store is a great shoe store—the greatest that exists in Philadelphia. It has reached beyond all local competition and on merit has a right to claim your interested attention. Chrome tanned kid is the best kid leather ever produced, finest feeling and highest gloss, the wear is beyond anything ever known. We use no other sort of tannage in any grade of shoe. No foreign or French kid is brought into this country now, but on the other hand our best tanners are exporting large quantities of Chrome kid.

In ordering shoes, send us the size, and width usually worn, as well as any other marks or numbers in lining of shoe you are wearing.

Men's and Boys' Hats

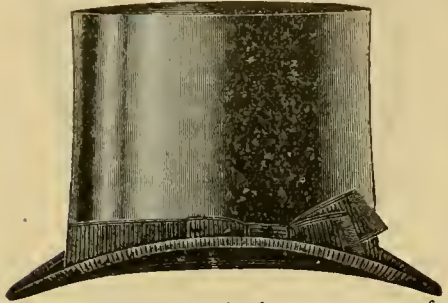

We illustrate some of the more popular styles. In ordering by letter you cannot be too explicit in your description. Hats or caps should *never* be sent by mail, as they are liable to damage, owing to the pressure to which packages are subjected in the mail bags. We cannot exchange hats sent by mail. They should *always* be sent by express

Directions for Measuring

With a tape-line take the number of inches around the head, in the position where hat is usually worn; if a stiff felt or silk hat has been used, give the exact number of inches of length and width inside. If any peculiarities exist (as round head or wide back and narrow front) they should be noted

Blankets, Comfortables, etc.

All Blankets are carefully selected for their wearing qualities, and *how* to get the greatest warmth with the least weight—points that are essential to the perfect Blanket. Select the size you wish and the price you wish to pay, and you will be sure of getting the *best* Blanket in the market at the price.

On account of the misleading statement made by the trade generally in giving the size of Blankets by quarters, we have adopted the plan of always giving the size in inches—the only accurate way. By the old way a 10-4 blanket should measure 90 inches, when it really only measures 64 inches, and so on all through the different widths.

Prices are for the pair unless otherwise specified.
